

# Something to smile about this summer in Fraserburgh!

Clark Dental Clinic now accepting **new patients** to their Practice Plan Membership Scheme

The Fraserburgh based, Hanover Street dental practice are now pleased to announce they will be accepting new patients. With 3 local dentists from the same family working at the practice, (Pauline, Michael and Katrina Clark) the surgery offers patients a very comfortable, and relaxed environment for dental care.

Currently at the practice, Michael (pictured right) is accepting patients onto his Practice Plan list. Michael was born in Fraserburgh and after briefly leaving the town to study dentistry at the university of Glasgow and complete his dental training year in Huntly returned to the 'The Broch' in 2015 to join the family. As well as being a qualified dental surgeon, Michael is also trained in Facial Aesthetics providing Botox, Juverderm facial fillers, Smilelign-tooth straightening treatment and tooth whitening.

Michael said, 'Practice plan patients will receive the best dental treatment available to maintain healthy teeth and gums. Currently I have good availability for appointments at the practice and I look forward to meeting and getting to know each of my new patients.'

Michael Clark

To book an appointment with Michael or for more information on our Practice Plan please feel free to call Clark Dental Clinic on **01346 517757** where one of the team would be happy to receive your call.
